EDUCATION

DEGREE	INSTITUTE	YEAR	GRADE
Bachelor of Technology	Punjab Engineering College, Chandigarh	2024-2028	CGPA: 9.63 (current)
Senior Secondary, CBSE	G.M.S.S.S -35D, Chandigarh	2024	Percentage: 83%
Secondary, ICSE	Holy Angels School, Rajpura	2022	Percentage: 93%

TECHNICAL SKILLS

- **Languages:** C++, Python, JavaScript, HTML, CSS, SQL
- **Computer Fundamentals:** Data Structures, Algorithms, OOPS, Operating Systems, Database Management, Computer Networks
- **Web Development:** Node.js, Express.js, EJS, MongoDB, React.js, Next.js, Bootstrap, Tailwind CSS, Redux
- **Tools:** VS Code, Git, GitHub, Jupyter Notebook, Command Line Interface, Postman, Firebase
- **Machine Learning:** Regression, Classification and Clustering Algorithms

PROJECTS

AI-Powered Procurement Platform for Construction Builders, Vendors & Owners

React.js, Node.js, Express.js, MongoDB, Socket.IO, Python (Flask + Prophet)

- **Architected a full-stack AI procurement platform** with **role-based access**, serving builders, vendors, and owners across sites, projects, purchase orders, vendor management, and **multi-step approval workflows**.
- Built an **independently deployed Python microservice** for **material demand forecasting**, secured with **service-to-service authentication** and engineered to **degrade gracefully** if the service goes down.
- Integrated **LLM-powered features (API)** — an **invoice scanner**, **natural-language vendor search**, and a **context-aware AI copilot** — alongside real-world APIs for **weather risk alerts**, **route optimization**, and **carbon footprint estimation**.
- Developed **real-time spending analytics**, **automated stock/budget alerts**, and **downloadable PDF/Excel reports**, backed by **proactive security audits**, **Sentry monitoring**, and **Playwright end-to-end testing**.

SOCIAL MEDIA APPLICATION

React.js, Node.js, Express.js, MongoDB, Socket.IO

- Developed a **full-stack social media platform** with **secure user authentication**, **encrypted passwords** using **hashing** and **salting**, profile management, and a content feed supporting both **posts** and **short-form videos ('loops')**.
- Implemented **real-time private messaging** using **Socket.IO** in Node.js, enabling **instant bidirectional chat** between users alongside the core social feed.
- **Designed the platform architecture** to **unify** multiple content formats — **posts**, **short-form video**, and **live messaging** — into a **single cohesive full-stack application**.

CERTIFICATIONS

Programming in Modern C++ – NPTEL (IIT Kharagpur)

Strong foundation in C++ programming covering procedural, object-oriented, generic, and functional paradigms

POSITIONS OF RESPONSIBILITY

Member ACM-CSS PEC

- Part of the **coding society** of PEC and **spearheaded the planning and organization of events**.
- **Successfully conducted programming sessions** and **arranged coding contests and hackathons** for **100s of students**.
- **Collaborated with team** to manage technical events in coding society

ACHIEVEMENTS

- Secured **98.1 percentile** in **JEE Main 2024**, ranking in the **top ~2% nationwide** among **1.5M+ candidates**.
- Solved **400+ DSA problems** on **LeetCode**.
- **Maintained CGPA 9.51** in B.Tech Computer Science and Engineering.
